Sai Maa Science of Consciousness Birthday Yagya

Blessings to You and Your Evolution
Incarnation Celebration
Fire Ceremony

Celebration of this incarnation is known in all dimensions.
In this linear time system, it's coming soon.

On this occasion, I wish to offer a deeper work to each and
everyone, a more profound work, a work of conscious
evolution.

The inspiration comes from the work the participants did in
the Journey of Light Consciousness.

Watching you merge with your light
Watching you go through the veil
Watching you experience yourself as nothingness, as love, as
light, as this boundary-less ocean of consciousness as you, is a
sublime joy to your soul, your guides, or your angels as you
say, and to my gang and to myself.
Sublime.

Yagyas will always be present, will always be relevant.
Fire ceremonies will always be available, as they take one from
the state of awareness to the state of samadhi, to the state of
God realization, thus knowing what you are.

Om Jai Jai Sai Maa

Sai Maa Science of Consciousness Birthday Yagya

Usually on birthdays I do not work on this dimension. I stay in Source full time and serve humanity from Source, to alleviate the suffering they go through, as well as serving the planet.

Masters on the day of their birth, or incarnation, shower the attributes of God, Divinity, and Source, to all humanity.

I have decided on that day, August 2nd, to be on the planet for a moment and perform this unique yagya together with Vishnu and Indra.

Indra is a master healer who uses love, light and compassion with total devotion. Some of you may recall the majesty we experienced during the whole year of Indra yagyas.

Yes, this unique Yagya will be performed on August 2nd with an activation on September 2nd, October 2nd, November 2nd, and December 2nd.

You may ask what will be the topic of this unique fire ceremony.

It is the *Science of Consciousness*
